

Double Barrel Grain Mover

Grain Handler

www.grainhandler.com Toll Free Number: 800-260-1745

Grain Handler's Double Barrel Grain Mover is a versatile chain conveyor that utilizes galvanized tube housing to gently convey a wide range of grain or grain products horizontally, or at angles of up to 60 degrees.

You can move grain efficiently and at high capacities while using less horsepower and causing less product damage than traditional conveying systems.

The unique UHMW paddle keeps grain flowing evenly from inlet to discharge, taking the place of traditional auger flighting.

This may be used individually or as part of our complete loop system.

- Pump spacer saddles are a bolt together design making it easier to modify lengths in the field.
- Tube housing is galvanized 12 gage steel ensuring longevity and reducing maintenance.
- Motors can be flipped to the bottom making it ideal for bin unloads and other applications.

- Ability to be head or tail driven.

- 1/2" Ultra High Molecular Weight (UHMW) paddles with a double backing and 3/8" cold rolled paddle back to ensure longevity.
- 81xHH chain on all sizes

Our Continuous Mixed Flow Dryers Accommodate Any Type of Grain

Grain Handler, USA, Inc. is an industry leading manufacturer of Grain Dryers and Grain Handling equipment with installations on farms and grain elevators in the USA, Canada, Mexico, Australia, the Ukraine and China. Founded in 1986, the company leaders have decades of direct experience with farming, grain elevator operations and manufacturing.

The guiding principles of the company are to provide high quality, efficient, and economical products designed to suit the individual customer's needs.

8 " Double Barrel Grain Mover / Capacity: 4,000 BPH / Chain Speed: 305 FPM											
8" Tube, 0 Degree Incline											
*Length	15'	20'	30'	40'	50'	55'	60'	70'	80'	90' - 120'	130' - 180'
